

AJMAL MUBARAK

Full Stack Developer

mubarakajmal0@gmail.com | +91 99478-93663 | Iritty, Kannur, Kerala, India | github.com/ajmal-mubarak
| <http://ajmalmubarak.in/>

PROFESSIONAL SUMMARY

Self-motivated Full Stack Developer with 7+ months of hands-on coding experience and 9+ completed projects. Proficient in Python, Django, FastAPI, React, and REST API development. Passionate about building modern, responsive, and user-friendly web applications. Available for freelance engagements and open to full-time opportunities.

TECHNICAL SKILLS

Languages & Frameworks:

- Python
- Django
- FastAPI
- React.js
- HTML5
- CSS3
- JavaScript
- REST API Development

Database & Tools:

- MySQL
- Git & GitHub
- Google OAuth / OAuth 2.0
- Razorpay Payment Integration
- Responsive Web Design
- Web Deployment (Hostinger, Vercel, PythonAnywhere)

FREELANCE EXPERIENCE

Full Stack Developer – Freelance

2026 – Present

Self-Employed | Remote

- Design and develop end-to-end web applications for clients, handling both frontend and backend.
- Build responsive frontends using HTML5, CSS3, and React.js with pixel-perfect UI implementation.
- Develop backend systems and RESTful APIs using Python, Django, and FastAPI.
- Manage MySQL databases including schema design, queries, and integration with web apps.
- Deploy and maintain web applications on cloud platforms including PythonAnywhere.
- Use Git and GitHub for version control, branch management, and project collaboration across all projects.
- Deliver 9+ projects covering e-commerce platforms, restaurant websites, and online course portals.

KEY PROJECTS

Job Portal Web Application

2025

React.js · FastAPI · Google OAuth · MySQL

- Built a full-stack job portal connecting employers and job seekers with AI-powered resume scoring and real-time chat.

- Integrated Google OAuth for secure, one-click authentication and seamless user onboarding.
- Developed RESTful backend with FastAPI; React.js SPA frontend with dynamic job listing and application flows.
- [Deployed live on Vercel: jobprotal-kappa.vercel.app](https://jobprotal-kappa.vercel.app)

E-Commerce Web Application

2024

Python · Django · MySQL · REST API

- Developed a full-featured e-commerce platform with product listings, product catalogue, cart, order management and checkout functionality with Admin Panel.
- Integrated Razorpay payment gateway for secure, real-time online transactions and order confirmation.
- Implemented backend with Django and MySQL; RESTful API for frontend-backend communication.
- [Live at: ajmal1003.pythonanywhere.com](https://ajmal1003.pythonanywhere.com)

Restaurant Website

2024

HTML5 · CSS3 · JavaScript

- Designed and built a fully responsive restaurant website with modern UI/UX principles.
- Hosted as a static site on GitHub Pages; optimised for all screen sizes.
- [Live at: ajmal-mubarak.github.io/restaurant](https://ajmal-mubarak.github.io/restaurant)

Online Course Platform

2024

HTML5 · CSS3 · JavaScript

- Created a multi-section online course platform UI with clean layout and responsive design.
- Showcases structured content delivery with modern frontend techniques.
- [Live at: ajmal-mubarak.github.io/online-course](https://ajmal-mubarak.github.io/online-course)

EDUCATION & TRAINING

Python Full Stack Development

2025 – 2026

SAC Computer Academy, Iritty

- Completed an intensive program covering frontend (HTML, CSS, JS, React) and backend (Python, Django, FastAPI).
- Built complete web applications from scratch including REST API development and MySQL database handling.
- Covered deployment basics and practical real-world development projects.

Higher Secondary Education (+2)

2023 – 2025

GHSS Ulikkal

Completed higher secondary schooling; built a strong academic foundation for a career in technology.

Secondary School Certificate (10th)

2022 – 2023

GHSS Perinkery

Completed secondary education, developing core analytical and problem-solving skills.

HIGHLIGHTS

- 6+ web development projects delivered across domains.
- active coding experience with 6+ technology stacks.
- Proficient in full-cycle development: requirement gathering → design → build → deploy.
- Available for freelance projects; strong communication and client-delivery track record.
