AJMAL MUBARAK

JUNIOR FULL STACK DEVELOPER

mubarakajmal0@gmail.com | +91 99478-93663 | Iritty, Kannur, Kerala, India
github.com/ajmal-mubarak | ajmalmubarak.in

PROFESSIONAL SUMMARY

Junior Full Stack Developer with hands-on experience building and deploying web applications and business websites. Skilled in Python, Django, FastAPI, React.js, JavaScript, MySQL, and REST API development. Experienced in responsive frontend development, backend integration, database operations, and website deployment across selected projects.

TECHNICAL SKILLS

Languages & Frameworks: Python, Django, FastAPI, React.js, JavaScript, HTML5, CSS3

Backend & APIs: REST API development, Google OAuth / OAuth 2.0, backend integration

Database & Payments: MySQL, Razorpay payment integration

Tools & Deployment: Git, GitHub, Vercel, Hostinger, PythonAnywhere, responsive web design

PROFESSIONAL EXPERIENCE

Freelance Web Developer | Independent Projects • Remote • 2026 – Present

- Developed and deployed business websites and web applications across service-oriented industries.
- Implemented responsive frontend interfaces using HTML5, CSS3, JavaScript, and React.js where applicable.
- Developed backend APIs and database integrations for selected projects, based on project requirements.
- Worked on page structure, service presentation, navigation, and user-facing enquiry flows.
- Used Git/GitHub and deployment platforms where applicable to manage and publish projects.
- Reviewed website functionality and refined interfaces for usability across devices.

SELECTED PROJECTS

Business Websites — Frontend development across the listed projects; backend/API/database contributions were made only on selected projects.

MeetAdr — Healthcare Website | https://meetadr.vercel.app/

Developed a healthcare-focused web experience with clear navigation and a user-oriented page structure. Include booking or backend functionality only where personally implemented and verified.

WrapZoid — Beauty & Wellness Website | https://wrapzoid.vercel.app/

Developed a beauty and wellness-focused website with service-oriented content presentation, responsive layouts, and consistent navigation.

DappleShift — Digital Agency Website | https://dappleshift.com/

Developed a digital agency website presenting services and business information, with a focus on clear page structure and contact-oriented user journeys.

Cyash Interior — Interior Design & Fit-Out | https://cyashinterior.com/

Developed a corporate website presenting interior design and fit-out services, organizing service content and making contact/enquiry information accessible.

VATER — Corporate Website | https://www.vater.qa/

Developed a business website focused on corporate interior and fit-out services, with service presentation, navigation, and enquiry-oriented page layouts.

Cornerstone Construct — Construction Website | https://cornerstone-construct.vercel.app/

Developed a website for a construction and contracting business, organizing business information and service-related content into a professional interface.

Additional Projects

Job Portal Web Application | https://jobprotal-kappa.vercel.app

Built a full-stack job portal connecting employers and job seekers with AI-powered resume scoring and real-time chat. Integrated Google OAuth and developed a FastAPI backend with a React.js frontend and MySQL.

E-Commerce Web Application | http://ajmal1003.pythonanywhere.com

Developed an e-commerce platform with product catalogue, cart, order management, checkout, admin panel, and Razorpay payment integration using Django and MySQL.

Restaurant Website | https://ajmal-mubarak.github.io/restaurant

Built a responsive restaurant website using HTML5, CSS3, and JavaScript, and published it on GitHub Pages.

Online Course Platform | https://ajmal-mubarak.github.io/online-course

Created a multi-section online course platform interface using HTML5, CSS3, and JavaScript with structured content presentation and responsive design.
